Dedicated to the preservation and stewardship of the water resources and natural communities of the Corkscrew Regional Ecosystem Watershed (CREW).

For more than 35 years, CREW Trust has led our SWFL community's efforts to protect and preserve CREW – a 70,000+ acre watershed that sustains our drinking water, protects our coastal water quality, safeguards our communities from flooding, powers our local economy, and provides critical habitats for dozens of threatened and endangered species.

CREW Trust also offer a wide variety of recreational and educational outdoor programs for visitors of all ages, interests, and abilities. Most of our programs are free or very low-cost to ensure they are accessible to as many people as possible. More than 100,000 people enjoy the CREW trails every year!

If you haven't yet come out to explore our four different trail systems in Collier and Lee Counties and experience the endless wonders of CREW's 40+ miles of hiking, biking and equestrian trails, we look forward to introducing you to all CREW has to offer.

The CREW Land and Water Trust is a private, non-profit 501c3 conservation organization dedicated to the preservation and stewardship of the water resources and natural communities in and around the Corkscrew Regional Ecosystem Watershed since 1989.
